Student X Leaves Her Locker, Heading Toward the Cafeteria at 110 Miles an Hour...

She has particular tastes, wants a variety of menu options and only has 27 minutes.

With a long legacy of developing smart countertop equipment for the foodservice industry's most fiercely competitive major chains, Nemco is well schooled in the market demands for healthier food, menu creativity and service speed that, today, also drive k–12 cafeteria operations like yours.

Let's Solve The Problem, Together.

Prep for Success

The best way to conquer your taste and nutritional requirements and, more importantly, overcome the appeal of off-site restaurants competing for your student dollars, is to start strong.

For fresh prepared, no name scores higher than Nemco.

Food Prep Solutions

Make fresh-prepared menu options far more labor efficient with the foodservice industry's clear leader in food prep.

Nemco has the deepest line of manual choppers, slicers and dicers that are all incredibly versatile, easy to use and built to provide reliable, consistent performance for years. It's the perfect formula for turning your entire cafeteria staff into the most beloved lunchtime heroes!

Keep Up the Good Work!

Research shows children are getting their healthiest meals at school. Fresh prepared is a big part of that.

Model 56050-1

CanPRO® Compact Can Opener

Crank open those #10-sized cans with zero effort and improved safety. A unique design cuts horizontally into the rim from the outside, crimping as it cuts to prevent sharp edges and eliminate the metal slivers that can otherwise fall into the food contents.

Offer Customization in Every Corner

Create the most appetizing menu opportunities in almost any space. Nemco's countertop cooking, warming and dispensing solutions can inspire an add-on function in an already robust serving line, anchor a standalone space like a 'sandwich shop' kiosk, or nicely round out a dynamic self-serve station.

Top 10 Food Trend

"Menu items that allow for personal touches remain popular with students, who will continue to seek customizable meal options, such as 'build-your-own' bars where they can create unique flavor combinations."

Source: Foodservice Director, citing Chartwell K12's 2022 List of Top Food Trends for Kids

PaniniPro® High-Speed Sandwich Press

Wow your hungry, time-strapped students by crafting **crispy, melty magic in under 60 seconds.**

Nemco's PaniniPro features two energy sources and a cooking area that fits up to four sandwiches at once, making it easy to satisfy the biggest crowds in the shortest lunchtime windows.

Model 6900A-208-GF

Induction Ranges

Maintain a full scope of gas-cooking functionality with these induction-cooking dynamos that are 3x more energy efficient and stay cool to the touch—perfect for a 'flame-free' kitchen.

Model 9130A

Nemco Food Dispensers powered by Asept®

No drip, no mess and no waste. Our food dispensers deliver consistently accurate portion control with almost zero effort, even in a convenient handheld Portion Pump.

Model 6405

Model 6410

Open Hot Food Merchandisers

Before any other could solve the challenge, Nemco found a way to open-display hot foods for hours, so your students can easily grab the meals they want—without having to touch anything else—and enjoy them at their best-tasting temperature.

With a wide range of features, sizes and customization options, no other line is better equipped to keep your students moving and their appetites fueled.

Hot Holding Cabinets

Front load your hot meals for the mad midday rush. Add Nemco’s accessory stacking kit and get twice the capacity in the same single-cabinet footprint.
